

Working with Medication in Health & Social Care

By completing this course, you will be able to:

- Know the different types of medication and routes of administration.
- Understand the role of legislation when working with medication.
- Understand roles responsibilities and boundaries when working with medication.
- Understand the principles of safe practice in the administration of medication.

(We are working in partnership with the Grimsby Institute to support existing staff with development; they offer a wide range of short courses along with Diplomas in Health & Social care.)

Certificate awarded upon completion of induction. T&C's Apply.
