

## Infection Prevention and Control

By completing this course, you will be able to:

- Describe the main ways an infection can get into the body.
- Demonstrate effective hand hygiene.
- Explain how their own health or hygiene might pose a risk to the individuals they support or work with.
- List common types of personal protective clothing, equipment and procedures and how and when to use them.
- Explain the principles of safe handling of infected or soiled linen and clinical waste.

*(We are working in partnership with the Grimsby Institute to support existing staff with development; they offer a wide range of short courses along with Diplomas in Health & Social care.)*

*Certificate awarded upon completion of induction. T&C's Apply.*
